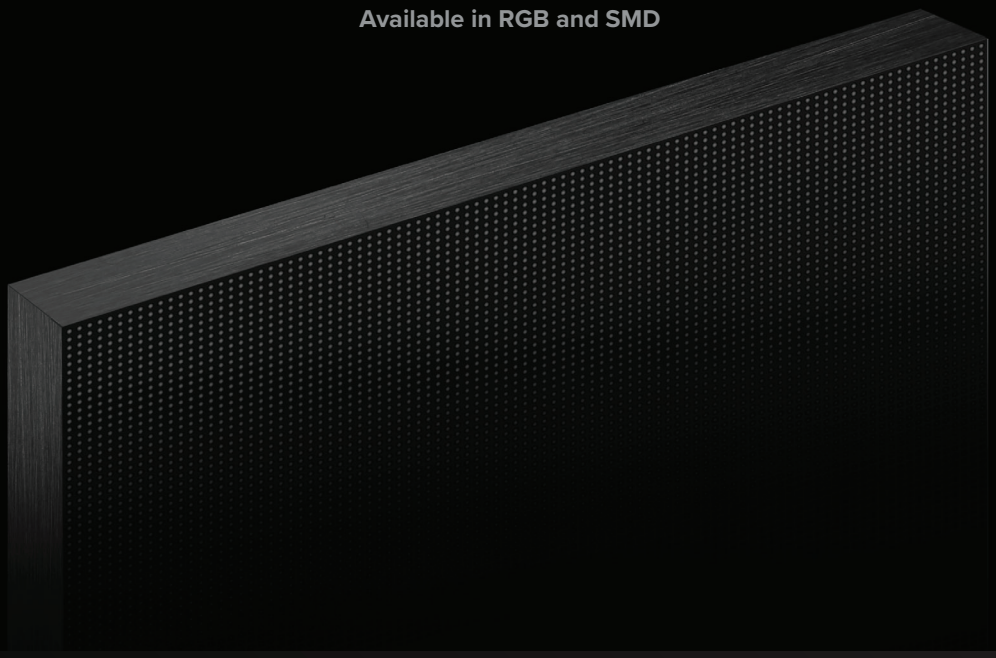
This is ONYX

Available in RGB and SMD



FEATURES

50% MORE ENERGY EFFICIENT

EDGE-TO-EDGE LED TECHNOLOGY

25% MORE VISUAL BRIGHTNESS

FULLY ENCLOSED & WEATHER PROOF

SINGLE DATA & POWER CONNECTION

4G CELLULAR DATA

Elite Hardware

Engineered by a digital sign industry veteran, Onyx is an elite product for commercial sign customers. Premier components are integrated into a streamlined design to deliver a reliable and energy efficient product that's easy to service and install in any application.

Complete Cloud Control

The Onyx control system will change the way you think about sign management software. Whether you are at your desk on a PC, on the go on an iPad, or on your mobile device, you have complete sign control. Access professionally designed content or create your own. Schedule. Run. It really is that easy.

Plug-And-Play Installation

Install our rugged aluminum cabinets to a new or existing structure, connect to power and voila! Your Onyx sign will immediately establish a data connection via onboard 4G cellular router and begin displaying content. The Onyx design saves your installers time and hassle, which saves you money.

nextLED™

ONYX

10,000 Nits

RGB Technology

The workhorse of outdoor fixed installation. The face of the display is comprised of clusters of Red, Green and Blue LEDs, called pixels. The closer the pixels, the higher the resolution of the images on the sign. Reliable, rugged and bright, these outdoor signs have life expectancies in excess of 10 years.

AVAILABLE IN 10MM & 16MM

10MM RGB

ONYX SMD

6,500 Nits

SMD Technology

High-quality 3-in-1 SMD LED displays offer incredible contrast and viewing angles and allow for higher definition displays. For customers looking to push the status quo of outdoor display quality, Onyx SMD will provide stunning visual quality and dependability.

AVAILABLE IN 6MM & 10MM

6MM SMD
